DETAILED ACTION

1. Claims 18-19 have been amended.
2. Claims 1-20 are pending.

Response to Arguments

1. Applicant's arguments filed 04 January 2008 have been fully considered but they are not persuasive.
2. Referring to the rejection of claim 18, the Applicant contends that the prior art Kinoshita does not disclose or suggest communicating information including both data with an encrypted service name and inherent information and the service name and inherent information, i.e. which has not been encrypted.
3. In response to applicant's argument that the references fail to show certain features of applicant's invention, it is noted that the features upon which applicant relies (i.e., communicating information including both data with an encrypted service name and inherent information and the service name and inherent information itself) are not recited in the rejected claim(s). Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993).
4. Therefore, the rejection of claim 18 is maintained in view of the reasons above and in view of the reasons below.

Claim Rejections - 35 USC § 112

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claim 18 recites the limitation "generating second identification information including the service name, the inherent information and the encryption data" on page 6, in the Remarks Section.
7. As shown in claim 1, the encryption unit configures to encrypt the first identification information by using a prescribed encryption key to generate encryption data. However, the Applicant fails to mention the feature of an encryption unit or encryption key in order to encrypt data with service name and inherent information. There is insufficient antecedent basis for this limitation in the claim.

Allowable Subject Matter

8. Claims 1-17 and 19-20 are allowed.

Conclusion

1. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
